Welcome to Toyooka City, Where Storks Fly

Toyooka's Insignia

Introduction to Toyooka City

The towns of Kinosaki, Takeno, Hidaka, Izushi and Tanto were merged with Toyooka on April 1st, 2005 to form Toyooka City. The total population is 77,000 and the area is 697.55 km². Toyooka occupies the largest area in Hyogo.

Tourism and agriculture are Toyooka's main industries. Izushi is famous as a castle town and for being home to Japan's best soba. Kannabe is a popular skiing area in winter, and Kinosaki Onsen is famous throughout Japan as a relaxing hot spring spot all year round. The entire area is so popular that it draws over 3 million tourists a year. For local specialties, we rear cattle for the famous Tajima Beef. From November until March we fish for Snow Crab (known as Matsuba Crab) which is well known throughout Japan. Our other famous products are bags made in Toyooka and Izushi Porcelain.

Procedure of Residency Management System

Your status of residence and duration of stay are dependent on the purpose of your entry to Japan. You need to check the type of status of residence and duration of stay specified in your passport.

After entering Japan for the first time, you need to go to Toyooka City Hall to do the moving-in procedure within 14 days after obtaining address. Please bring your residence card. If you don't have it yet, please bring your passport with "residence card to be issued later" written on it.

Residence Card

Persons over 16 years old must carry their residence card with them at all times, even if you are in possession of your passport.

The Basic Resident Registration for Foreign Residents

With the abolition of the Alien Registration Act and partial amendment to the Basic Resident Registration Act, foreign residents will be recorded on the Basic Resident Register in the same way as Japanese nationals. With these changes, administrative procedures at local municipal offices are now simpler and more convenient.

A Resident Record (called "juminhyo") is created for foreign nationals who will stay for more than 3 months and have their address in Japan. (※Except for temporary visitors like tourists)

Procedure at Toyooka City Hall

Situation	Term	Necessary Documents	What To Do
Status changed to mid or long-term resident	Within 14 days after obtaining address	Residence Card	Submit notification of new address
Changed address		Residence Card Certificate of Change of Address	Submit "Moving out" and "Moving in" notifications

Changing Your Status of Residence

You will need to change your status of residence in the event of changing your occupation or starting new work to a status which fits your new occupation. In this case, you must submit a form called “Application for changing status of residence”

(ざいりゅうしかくへんこう 「在留資格変更」 in Japanese) at your regional immigration bureau. You may need to produce additional documents depending on your current and desired status of residence and period of stay. Check with your local Immigration Bureau for more details.

Extending Your Period of Stay

If you want to extend your period of stay continuing the same activities, you need to carry out procedures for an extension of your period of stay. Applications can be made prior to the expiry of your initial period of stay.

Extending the Period of Your “My Number Card”

The period of your “My Number Card” is the same as your period of stay. When you extend your period of stay, you need to do the procedure with your “My Number Card.” If you don’t do the procedure, you can’t use your “My Number Card.” If your card is expired, you need to make a new card (fee is required).

Procedures at the Regional Immigration Office

Situation	Term	Necessary Documents	What To Do
Change in name, birth, gender, or nationality/region	Within 14 days of the change	Any document showing proof of the change Residence Card Photographs Passport	Directly submit notification of the change to Regional Immigration Bureau
Change in affiliation or spouse		Residence Card	
Loss or defacement of Residence Card	Within 14 days of learning of the loss/defacement	Document showing proof of loss Passport Photographs	Apply at Regional Immigration Bureau for reissuance of card
Expiry of valid period of Permanent Resident's Residence Card	Until expiry	Residence Card Passport Photographs	Apply at Regional Immigration Bureau for renewal

Permission to Engage in an Activity Other Than That Permitted by The Status of Residence Previously Granted

If your current status does not allow you to work, yet you wish to obtain a means of income such as a part-time job, then you must acquire permission to engage in this new activity.

Acquisition of Status of Residence (New Births)

If your child is born in Japan and does not have Japanese nationality, an application must be made at the immigration bureau whose jurisdiction they are under, and procedures must be carried out for the acquisition of status of residence within 30 days of the child's birth. However, there is no need to do this in the event that the child will leave the country within 60 days.

Re-Entry Permits

A Re-Entry Permit is not required for persons with a valid visa and residence card, as long as the trips in and out of Japan have a duration of less than 12-months in length.

Tax / Pensions

Tax

People who live in Japan for more than one year, even foreigners, are required to pay taxes.

Income Tax

Income tax is the tax levied on all income you earn between January 1st and December 31st of that year.

- **People whose only income is from their salary at a company**

Income tax is deducted automatically from your salary, and it is calculated at your workplace around the end of the year.

- **People who have a source of income other than a company salary**

They must calculate their own income and do final tax returns at the tax office by themselves.

Local Inhabitants Tax (Prefectural Inhabitants Tax • Municipal Inhabitant Tax)

Anyone whose address is in Toyooka City on January 1st must pay this tax. Both prefectural inhabitants tax and municipal inhabitants tax are calculated based on your income from January 1st to December 31st of the preceding year.

How to Pay Local Inhabitants Tax

Special Tax Collection	The company where you work deducts the amount of tax from your monthly salary and pays.
Ordinary Tax collection	People such as independent business proprietors, farmers and freelancers will receive a tax notice which is issued by the city office. You can pay this tax notice at the bank, post office or by smartphone application.

Choose your tax agent, known as “Nouzei Kanrinin,” and tell the name of the person to Toyooka City Hall before you return to your home country.

Motor Vehicle Tax (category-based) and Light Motor Vehicle Tax (category-based)

Motor Vehicle Tax (Prefectural taxes)	This is a tax levied on persons who possess a motor vehicle.
Light Motor Vehicle Tax (Municipal taxes)	This is a tax levied on persons who possess an engine-powered cycle (moped), a small-sized special motor vehicle, a light motor vehicle or a two-wheeled compact motor vehicle.

A tax notice will be mailed to anyone who possesses a vehicle. If you get it, please pay this tax through the post office or bank before the due date. If you hand over your vehicles to another person or dispose of your vehicles, please make sure to do the procedures for registering a change of name or disposal of a vehicle at your nearest transportation bureau.

Property Tax

The property tax is levied every year on those who own land, buildings or amortized assets as of January 1st. Those who own amortized assets need to declare them by January 31st. If you are not the owner of the building where your store is, you need to declare renovation as an amortized asset.
